When you think you've seen it all...

Sears brings a classic holiday fantasy to life: the old world style and charm of decorations inspired by "visions of sugar plums"...displayed on our most natural-looking tree ever. We've lovingly assembled everything you'll need to recreate the look shown here, starting with 120 ornaments that range from the delicate pastel beauty of sugared glass discs to the mouth-watering details of "gingerbread" houses. Then we've added over 125 feet of garland, 17 miniature light sets, white plush tree skirt and a blizzard of snowflakes... even pine scent to complete the illusion. The tree has dense clusters of short, life-like needles. Our exclusive design makes it easy to assemble and shape into that just right fullness.

When you think you've seen it all...

Sears brings you nativity figures with delicate details that are so true-to-life, they are only possible because of a Renaissance casting process and the hand-painting skills of Italian artisans. These 8-inch high figures of polyester resin are made using a method invented in 16th century Florence by Benvenuto Cellini for casting fine jewelry. This allows facial features, folds of cloth, even individual fingers to closely approximate the fine details of the original sculptures from which they are taken. Each figure is hand-painted to do justice to its remarkable exactness. We have matched these figures with a stable and scenery that are truly unique. Each piece is hand made, and includes natural tree bark and moss gathered from the forests of Tuscany, so that no two are alike.

When you think you've seen it all...

Sears brings you a bed that dreams are made of... that captures all the grace and elegance of the Victorian period. The Brass Bed is based on the design of one sold in our 1897 Catalog. Crafted in America with 2-inch diameter tubing end posts, 3½ in. ball finials, solid brass connectors. All protected by a baked-on epoxy coating. And from the design of a 19th century antimacassar comes the inspiration for our unique bedroom coordinates. Translated here in cocoa color Seducant Satin with delicate schiffli embroidery. This remarkable satin is a breathable woven fabric of 100% Dacron⁺ polyester. So elegant, yet it is machine washable and requires little or no ironing.

Give the joy

adorable adoptables

Once upon a time,
not too long ago,
Colonel Casey the stork,
swooped down into the
enchanted Cabbage Patch
with a large bundle in his beak.
"I've brought more,"
he said, "for you to
adopt and adore . . ."

Cabbage Patch Kids™

Yes, those cuddly little tykes are back and are even more adorable than ever before! They have sweet expressive faces, an abundance of yarn hair, little pudgy hands and feet, dimpled knees and elbows and the cutest little belly button. But, what makes them even more special for 1984, is the differently colored birthmark on each tiny "tush". This new batch of "Kids"™ is so unique, chances are you'll never see one just like yours. We'll select the outfit and hair style to surprise you. Each is sent to his or her "adoptive parent" with a birth certificate, adoption papers and a special personality profile. 16 inches tall. Imported.

IMPORTANT: Remember, you can't specify a particular hair style or outfit when you order a Cabbage Patch Kid™. Let us surprise you with a "Kid"™ so adorably unique, it may be one of a kind! Please note, however, that only a limited number of "Kids"™ are available for adoption before Christmas. Please order early to avoid disappointment.

Today, Sears is proud to offer this limited edition collection of knives to you, framed individually in walnut presentation cases. Each knife is numbered and signed and includes a certificate verifying the age of the ivory. You can register your knife with the Spouting Whale Association, information is included. Select-n-Sew "Plus" tailors the width of 7 utility, 7 stretch and 3 decorative stitches built into this machine. Sew-by-Color lets you set the stitch length by matching the recommended length on color-coded dials. A built-in one-touch buttonholer lets you sew basic buttonholes with the single movement of a control. A snap-in automatic buttonholer sews 2 other styles in 12 sizes. Ultra-Stitch helps make professional-looking buttonholes and stretch stitches by automatically balancing the stitch density on forward and reverse. The drop-in horizontal bobbin, minimal guides and slotted take-up lever help simplify threading. A variable-speed foot pedal lets you control the 1-speed motor. Snap-on super-high-bar presser feet. 3-needle positions. Convenient flip-up carry handle. See Sewing Machine Note on the facing page. When you think you've seen it all...

Sears brings you a train set that looks so authentic and sounds so realistic it may just well be the ultimate in model railroading realism.

The w-h-o-o-s-h sound of steam, the chug-chugging of the engine are synchronized to the big drive wheels and are broadcast through a speaker built inside the tender. You can ring the bell, duplicate all the standard whistle signals at will whether the train is moving or standing still.

And to expand the realism even further, it's built to the extra-large, easy to handle gauge-one.

Even the factory is unique—an old 1925 renovated Michigan train depot where this 1860-vintage woodburner is hand-assembled and hand-detailed.

Ones like it linked Atlantic to Pacific when the gold spike was driven, made Jesse James notorious, carried cowboys, miners, ranchers and even changed the outcome of famous Civil War battles.

Indoor/outdoor cars made of styrene and metal. 14-in. long, 6-in. high, 4-in. wide. Locomotive and tender about 22-in. long overall. STAR WARS: RETURN OF THE JEDI

(1 thru 16) Journey with us to another galaxy with Star Wars: Return of the Jedi™ durable plastic toys.
For children ages 4 years and up.

(1 thru 10) We are entering the land of Jabba the Hutt. 9D9, Barbado, and Amanaman wait in evil Jabba's dungeon (1) to lift unsuspecting robots with the rotating crane.

Moving on we hear music. It's Sy Snootles and the Rebo Band (2). Sy does the vocals, while Droopy McCool and Max Rebo play the tunes. Jabba (3) listens, sitting on his prison platform with as many as 7 prisoners below. He could open that door with the flick of a switch, but, for now, he seems content, moving his head and swishing his tail. Salacious Crumb at his side. What's that? The Rancor Monster (4)! He's moving toward us, snapping his jaws. Let's go! Outside, the Imperial Cruiser (9) searches for trouble. . . . laser guns rotating, radar dish swivelling. Did they spot us?

We made it to Endor, but we'll have to look out for Speeder Bikes (5) chasing Rebels on land. Meanwhile, battles are raging in space. A Y-Wing Fighter (6), with R2-D2 in his compartment, shoots its laser cannons. He's chasing one of the Empire's Tie Interceptors (7). His lasers are blasting, but his wings are ejecting. The Rebels got him! More Rebels approach in B-wing fighters (8) that have a gyro-gravity effect in the cockpit. The craft spins, but the pilot stays upright as he speeds on to beat the Empire! The Emperor, the evil leader, arrives in the Imperial Shuttle. What's next? It's up to you from now on!

FIT FACTS FOR BOOTS: All boots (including nylon) are sized to be worn with lightweight stockings, so if you'll be wearing heavy socks, order ½ size larger. Leather or urethane boots may feel snug at the instep at first. There may also be some heel slippage. This is normal; boots have to be broken in gradually. Putting your boots on will be easier if you apply a light coat of talcum powder on the instep and pull firmly on the top of the boot. After a few wearings, boots will conform to the shape of your foot for a comfortable fit.

Now you can do virtually all your holiday cooking in one convenient oven. Our finest micro/convection oven has more innovative features than any other unit we offer! It combines the speed of a microwave with the delicate "hot-air" browning of convection cooking. That's the beauty of a micro/convection oven . . . you can choose any one of three cooking methods to suit your particular needs: microwave for fast action, convection to surround and brown your food with circulated heated air, or micro/convection for the best of both! For your convenience, 300 recipes have been pre-programmed into this oven's memory, but there's still room for 3 of your favorites which you can change at any time. You can even double or triple 72 selected recipes with the Recipe Multiplier. Program up to 5 separate operations and the oven's computer-type electronic memory will carry out the entire sequence automatically. Forget what you programmed the oven to do? Just press Memory Recall. Program a pause into any multi-stage operation with the Pause Control. Auto Defrost, our most precise defrosting system, features 3 separate keys for meat, poultry or fish. Just enter the weight up to 9.9 lbs. and let the oven select the time and power level. 100° to 180°F dehydration cycle with 10-hour timer lets you dry seasonal foods without using artificial additives. 1.3-cu. ft. capacity and removable 2-position shelf permit versatile, whole-meal cooking that lets you prepare up to 3 different foods at the same time. Use the temperature probe for microwave cooking by temperature as well as time. The probe will monitor the internal temperature of your food until it reaches your preset level. You can then use the Hold/Warm by time feature to help keep food warm for up to 100 minutes. Features AccuWave Cooking System . . . a built-in stirrer fan distributes the microwaves so foods cook from all sides. 12-hour Delay Start Control lets you begin cooking even if you're not at home. When you think you've seen it all...

Sears brings you the dream toy of the future...today! **Maxx Steele™** is a visitor from the 21st century: a fully programmable robot servant and companion that walks, talks and even plays games. With his wireless master controller you can guide him by remote control or program a sequence of actions and activities that he will perform again and again—by himself from memory! Maxx is versatile. He can play music, bring you a snack, or wake you up in the morning. He tells time with his built-in clock and can play “Moon Ball” and “Force Field” against a human. And with his vocabulary of 140 words, he's quite a conversationalist. When his batteries begin to run down, he asks for a recharge. He tells you what operating mode he's in, warns you when you're overloading his programming and even lets you know when he's going to shut down to save power.

Maxx is 24 inches high. His rechargeable battery operates him for about 2 hours on full charge...recharges in 14 hours (charging unit included). He was designed and built in the U.S., and he comes fully assembled. Warranted by Ideal, write for free copy, p. 323. See “N” suffix note, p. 323.

When you think you've seen it all...

Sears brings you an electronic typewriter that's so advanced, we believe it will change the way you think about typing. Imagine a typewriter that prints three type sizes in four colors at the touch of a button...that automatically plots graphs...that uses regular typing paper to produce letter-quality printing...yet weighs less than six pounds and is only 2¾ in. high! Our newest electronic typewriter is all these things and more. The unique design combines advanced technology with the versatility of the ballpoint pen to establish a new state of the art in personal typewriters. It types up, down or across in black, red, green or blue. On command, it plots pie charts, line graphs and bar graphs in up to four colors.

All three kinds of graph can be printed in three different sizes, and with the motorized paper feed it's easy to position them anywhere on the page. Plus, the 15-character LCD display lets you correct mistakes before they're printed.

Goes anywhere...just 13½x10½x2¾ inches high, so it fits easily into a standard briefcase. Or use its own snap-on lid and carrying handle. Built-in four-function calculator with print-out. Runs on five "D" cell batteries (sold separately, p. 495) or use AC adapter (included). UL listed AC. Uses ballpoint pens instead of a ribbon...order refills below. When you think
you've seen it all...

Sears makes snacktime dreams come true with professional machines you can have right in your own home.

The old-fashioned Big Popper has been a familiar sight at movies, ball parks, carnivals for so many generations it's become a nostalgic bit of Americana. The maker, Cretors of Chicago, has been in the popcorn business 99 years and we think no system duplicates the special hot, fresh taste or aroma of corn popped inside this famous Big Popper.

Includes 2 lbs. of special hybrid popcorn, 16 oz. of pure coconut oil and even a big stainless steel scoop (just like they use at movies) Shipped assembled and prepaid. Plug into household outlet.

And to top snacktime off at home or office, Sears exclusive "The Soft Drink Machine" gives you ice cold carbonated drinks like Coke®, 7 UP®, RC Cola®, Dr. Pepper® at the touch of a button and you never need buy or return cans or bottles again.

Dead Blow Hammers pack their power inside, so they hit hard without rebounding

In the core of the head, hundreds of metal shot provide maximum controlled striking force without rebound. Shot is encased in a steel barrel that is welded to a steel rod extending the length of the handle for extreme rigidity. A solid urethane UNICAST® handle retains its shape. Because the faces on (1) are urethane, it outlasts other soft-face striking tools. Urethane retains its shape even through repeated striking on hard surfaces and rough edges, plus it's non-sparking. (2) has durable crowned alloy steel heads.

How to buy a present, wrap it for shipping,
and send it across the country (often for
less than you'd pay to ship it yourself)
—all in just minutes
—with just one phone call

SHIP-A-GIFT

Avoid the bother of sending packages yourself. When ordering a present for an out-of-town relative or friend, just tell the phone order clerk the name and address of the recipient. That's all there is to it. There's no need to pick up a package, wrap it for shipping and make a special trip to the post office because Sears will take care of it for you. Plus your gift will be shipped from our distribution center that's nearest to its destination, so you never pay more for delivery than the recipient would pay if she ordered the same item for herself.

Charge it: Pay for the gift with your Sears credit card. Or if ordering in person, you may wish to pay cash in advance. Sorry, no C.O.D.'s. Tax is based on the item's destination.

Choice of delivery or pickup: If requested, your gift can be sent for pickup to any of our more than 3000 Sears locations in the United States. Sears will notify the recipient.

Christmas delivery: So that gifts shipped within the U.S.A. will be received before Christmas, order before Dec. 12, 1984. Sears will also ship your gifts to foreign countries or APO-FPO addresses. Allow 30 to 60 days. Call any Sears selling unit for details or write in any language to Sears Personal Service, Dept. 157 at addresses shown on page 323.

The perfect gift when you don't know what to give. Sometimes the "just right" gift is the one they choose themselves. A Sears gift certificate lets the recipient choose from over 100,000 items, and it's redeemable at every one of our more than 3000 locations, catalog and retail. Choose any denomination from \$5 to \$250 and we'll send it to you so you can give it personally. Or if you prefer, we'll send a gift certificate directly to the recipient in your name.

Gift Certificate.....sent to you
12 XC 7440.....State \$5 to \$250

Makes a perfect bonus or
incentive award for businesses, too!

Your business can buy Sears Merchandise Gift Certificates with your company check or you can buy them on credit by completing a request for credit approval that we'll send you when you write to the address at left. Terms are net 30 days. The certificates will be mailed to you via registered mail. You will be invoiced for full face value.

Hey Hey Sleepyhead, it's time to wake up and get going. Come on now, open your eyes, big stretch, out of bed, brush your teeth. Hurry because it's going to be a beautiful Smurfy day. We want you to enjoy it with all of us.

Good morning. It's me, your friend Big Bird. The old schoolhouse clock says it's time to get up.

R2-D2. Beep, beep. C-3PO. What R2-D2 is saying is that you have to get up right away. R2-D2. Beep, beep. C-3PO: R2, you shouldn't be so polite.

This distinctively styled Clock is a modern cousin to the traditional schoolhouse clock, updated to reflect a contemporary mood. The glass front features protective glass over a beige dial and pendulum, while smoked glass and simulated lead accents outline its traditional silhouette. Its wood frame has a rich, red-oak stained finish, and measures 16x30 inches long. Pendulum quartz movement uses 1 "AA" battery (not incl., see p. 314). Warranted by Mechanical Mirror. Clock measures 10½x21½ in. long; uses 2 "C" batteries (not incl., see p. 314). Warranted by Harris and Mallow. Write for free copy, see p. 323. 21 E 18555C—Wt. 11 lbs. ...\$149.99

Relax in something that's good for you

This chair's attractive, linear design is the product of doctors and designers who saw the need for a chair that helps prevent sitting "hunched-up" and cramped.

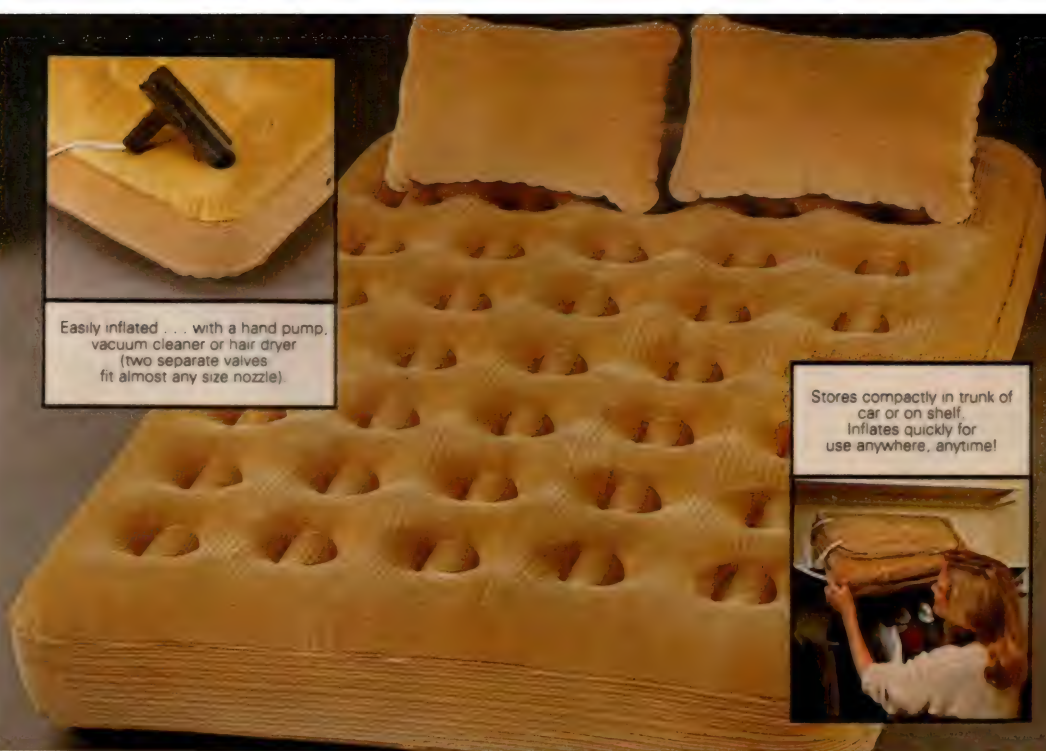

When you sit in this chair you use fewer muscles, help improve your circulation and you breathe deeper and more fully. And because you use your back and legs for support, you have less lower back stress. It is especially helpful when working at your desk, typewriter or computer terminal. It's already in use in homes, offices and factories throughout the world, in places where people are in touch with what's good for their bodies.

The frame is hardwood and oak veneer and the seat and leg rests are polyester, cotton velvet cushion. Measures 32x22 15 inches overall. See "N" note p. 123.

WISH BOOK VALUE Cut \$2 From our 1983 Wish Book

2 color bristles give the tree a "snowy" look

It is said that imitation is the highest form of flattery . . . and we think our artificial trees are very flattering. So truly natural-looking and beautiful, our copies of nature's work are also easy to assemble and long-lasting. All have flame-resistant needles and steel poles. See assembly info. below, and order from chart at right. See "N" suffix note on page 323.

*All our trees assemble in one of these easy ways:

R.M.—Ringmaster: Our newest assembly system . . . a series of branch rings stack one above the other, resting on hooks that extend from the pole. See illustration at right.

P.A.—Partly Assembled: Just place tree in stand.

U.H.—Unassembled Hinge: Simply insert branches into hinge.

P.H.—Preassembled Hinge: Branches are pre-attached, all you do is open them into place.

S.P.—Straight Panel: Lengthwise strips form a section of branches for a full-looking, quick-assembling tree.

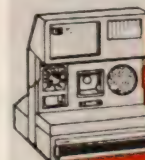

T.P.—Tiered Panel: Multi-layers of clustered branches hook onto pole for our fullest, densest look.

BOSTON ATHLETIC CLUB

by GIL TRUEDSSON

Boston Athletic Club menswear by award-winning designer Gil Truedsson.

A competitive skier, cyclist and horseman, he has personally shaped this collection to reflect his own aggressive approach to life. "My clothes are designed to give you a sense of freedom and a tremendous degree of comfort. You can see it in the texture of the fabric, the way it's cut, the colors I choose".

Twelve years in the world of fashion has earned Gil a reputation for clean, uncluttered silhouettes... "a European kind of cleanness". This B.A.C. collection reflects that uncluttered, comfortable approach. Through not extreme in shape, shoulders are more rounded and fuller for a looser, easier, more athletic appearance.

This beautiful fall line focuses on three color groups: brown and taupe, blues, and gray and black, all with subtle accent colors such as burgundy and rose. The fabrics are primarily blends of natural cotton, wool fibers with polyester, acrylic.

But the real beauty of this collection is the ease in which each piece works with the next. Each color, each accent, each fabric was chosen to blend effortlessly. It is meant to facilitate a long term approach to dressing that offers many options.

Enjoy the timeless quality of 100% wool

(1 thru 16) Wool is said to be the first fiber that man successfully made into a fabric. There is evidence that as far back as the Stone Age, man took advantage of the warmth and comfort of real wool. Over the centuries, as man learned more about this wondrous fiber he improved upon its natural qualities of natural elasticity, strength and warmth. The sweaters on these two pages are of pure 100% wool. They're a lot more attractive than the Stone Age man's but you'll enjoy that very same warmth and comfort. To keep them looking good: dry clean or hand wash.

OUR CATALOG CUSTOMER LIST

We do not sell or rent our list of catalog customers to anyone, though names, addresses and phone numbers may be used by other Sears Divisions, subsidiaries or programs for purposes other than offering catalogs to our customers. These purposes would include special offers on services and merchandise through direct mail and telephone solicitations. PAYING FOR YOUR ORDER

The fastest and easiest method of payment is SearsCharge. Over 60 million Americans carry a Sears Credit Card. You can use it to order by phone or in person at more than 3000 Sears stores or by mail.

Choose from 2 charge plans, the basic SearsCharge Plan and the SearsCharge Modernizing Credit Plan for use when repairing or improving your home. For further information and to apply for credit by phone see pages 326A and 326B.

Payment with Mail Orders can also be made by check, bank draft or money order for the amount covering merchandise cost, delivery and handling. Do not send postage stamps, coins or paper money.

C. O. D. Orders are accepted only for merchandise that is sent from a Catalog Merchandise Distribution Center to a Sears Selling Unit. You may pick up your order or arrange with your Sears unit for redelivery to your home (if available). If you request that your order be sent directly to you use your Sears Credit Account. When ordering in person you may also pay in advance. When ordering by mail you may also include check or money order to cover all costs.

REGARDING OUR CATALOG PRICES

Following the policy in effect since our founding in 1886, prices quoted in Sears catalogs do not include (unless stated otherwise) charges for handling and shipping of goods from our Catalog Merchandise Distribution Center to a Sears catalog selling unit for pick-up, or for delivery to your home. The shipping and handling charges may differ depending on method of shipping. Information on how shipping weights are determined and details on shipping and handling charges for shipping by USPS/UPS or non-Sears truck can be obtained from the customer information pages of our Big Book. Specific details on charges for handling and shipping to a Sears catalog selling unit for pick-up or redelivery (if available) can be obtained from the unit, either at the counter or over the phone.

Comparative pricing statements made in this catalog refer only to prices on merchandise offered nationwide through our own catalogs. Catalog merchandise prices and assortments may vary from those in our Retail Stores and between regional editions of a catalog. If an item description in this catalog does not include our "was" price or any other basis for savings, that item is offered at our regular low price.

Your order will always be filled at Sears lowest current price. If the products you order from our catalogs happen to be on sale in a current book, we will fill your order at the reduced sale book prices—automatically.

(2) It's the variable resistance in the Nautilus® Abdominal Machine that is the key to a strong, tight stomach. Only Nautilus® isolates the abdominal muscles and works them to capacity. Abdominal Machine exercise is effective and comfortable because the resistance it offers is geared to automatically change to match the strength curve of abdominal muscles. In contrast, grueling sit-up exercises offer meager results. Five minutes a day, three days a week on the Abdominal Machine can turn a flabby waistline into a strong one. Measures 35½x38x48 inches high. Shipped partially assembled.
